

SA8000:2014 Anti-Bribery Policy

Dear Client Company's Management,

DNV GL provides third-party independent SA8000 certification services which are recorded and reported to our Impartiality Committee, Certification Committee, SAAS and others, as applicable, as per our contractual agreement.

We request your cooperation to enable us to do our job in a professional manner and to support the Certification Body's anti-bribery policy. In return, we commit to treating you and your staff with respect, objectivity and fairness during and after each audit.

DNV GL has implemented a strict 'Code of Conduct'. It applies to all employees of DNVGL Group AS and its subsidiaries (hereafter "DNV GL" or "the Group"), as well as to temporary employees, hired contractors acting on behalf of the Group, and anyone who holds a position of trust in the Group, including the Board of Directors and its sub-committees.

This letter is presented to you to explain the expectations we have for our own auditors as well as your staff during our visit. We kindly ask that you read this letter as presented to you at our audit opening meeting and then sign it as your commitment to act accordingly:

1. **Bribe requests:** Never under any circumstances give in to demands or requests for benefits or payments from DNV GL Auditors. If a DNV GL Auditor requests or solicits for any direct or indirect benefit or payment, we expect you to contact us immediately.
2. **Bribe offers:** Never, under any circumstances offer a payment, bribe, gift or benefit to any DNV GL Auditor. Any benefit given or offered to a DNV GL Auditor will be considered as a corrupt practice and will be reported to SAAS within 24 hours.
3. **Undue pressure:** Do not put any pressure on our employees to execute their work in a subjective way or to amend their findings. Furthermore, do not directly seek out our DNV GL Auditors outside of the audit time period, for example, at their homes, hotel for any reason.
4. **Work environment:** Please create an environment where auditors can work freely and constructively in a way that allows them to do their job properly, timely, and in such a way that SA8000 audit expectations can be met.
5. **Lunch:** DNV GL Auditors may prefer a working lunch at site.
6. **Rides:** DNV GL Auditors may not accept rides to the client company location. DNV GL Auditors may only accept rides under unique circumstances where alternative transportation is not available and with approval from their supervisor.

REPORTING OF UNETHICAL PRACTICES

If you attempt to bribe our Auditors we will: a) report the details of such to SAAS and b) place your company on our internal "not to be audited" list and sever all relationships with your company. If you're in doubt about the professionalism or conduct of any DNV GL employee or representative, please either:

1. Contact DNV GL immediately and we will objectively investigate your complaint.
2. Report the issue to SAAS at: **Social Accountability Accreditation Services**, 15 West 44th Street, 6th Floor New York, NY 10036; Tel: +1 (212) 391-2106 fax: +1 (212) 684-1515 email: saas@saasaccreditation.org
