| Review Objectives                           | This report summarises the results and conclusions from the performed follow-up review audit. The audit is performed as a formal part of the certification process with the aim to maintain certification of the management system. The key objective of a management system audit is to determine the conformity of the management system with the standard. Additionally to evaluate the effectiveness of the management system to ensure your organization is capable to achieve specified objectives and meet applicable statutory, regulatory and contractual requirements. |
| Statement of confidentiality                | The contents of this report, including any notes and checklists completed during the audit will be treated in strictest confidence, and will not be disclosed to any third party without the written consent of the customer, except as required by the appropriate accreditation authorities                                                                                                                                                                                                                                                                                    |
| Disclaimer                                  | A management system audit is based on verification of a sample of available information. Consequently there is an element of uncertainty reflected in the audit findings. An absence of nonconformities does not mean that they do not exist in audited and/or other areas. Prior to awarding or renewing certification this report is also subject to an independent DNV internal review which may affect the report content and conclusions.                                                                                                                                   |

## 6) SUMMARY OF FINDINGS RAISED DURIN THIS FOLLOW-UP REVIEW AUDIT

### Overview:

If the follow-up review identifies weaknesses/findings against the performance of the client company to SA8000 requirements 3.5, 9.4, 9.6 or 9.8, then the Lead Auditor SHALL raise a nonconformity citing "inadequate demonstration of commitment to management systems principles within the organisation's SA8000 Policy (SA8000, 9.1.2)" and further details/evidence of the infraction(s) as follows:

- MINOR Non Conformity: shall be raised in the case of minor, isolated (non-systemic) failure to demonstrate commitment. Further actions SHALL be reviewed during the next scheduled audit visit.
- MAJOR Non Conformity: shall be raised In the case of broad, or systemic, lack of commitment. A Special Audit shall be conducted on-site within 8 weeks to review responses and further actions undertaken (potentially leading to a recommendation for suspension of certification).

|                       |                                                                        |  |
|-----------------------|------------------------------------------------------------------------|--|
| MINOR Non Conformity: | <input type="checkbox"/> Yes<br><input checked="" type="checkbox"/> No |  |
| MAJOR Non Conformity  | <input type="checkbox"/> Yes<br><input checked="" type="checkbox"/> No |  |

### NOTE for Lead Auditor:

Please update the List of Findings sheet of the previous audit. Please add the raised Non Conformities in the section "Findings" of AuditorApp, generate the updated List Of Findings and upload it under Audit Documents

## 7) ADDITIONAL INFORMATION (TO BE PROVIDED IN CASE OF RECERTIFICATION FOLLOW-UP REVIEW)

|                                                                                                    |                                                                        |  |
|----------------------------------------------------------------------------------------------------|------------------------------------------------------------------------|--|
| Reconfirmation of SA8000 certification scope                                                       | <input checked="" type="checkbox"/> Yes<br><input type="checkbox"/> No |  |
